J. K. HELM, SR.

For Magistrate Wayneburg District,
JOHN M. CAMDEM

For Constable Wayneburg District,
JOHN G. BAUGH

THE full appropriation committee of the House will take a junket to Panama to see the canal in November. As Congress has authorized the issue of \$375,000,000 in bonds for the digging of the ditch, the reason of the visit now is not apparent, except for the purpose of enjoying an outing at the expense of the country. The original estimate of the cost of the canal was \$140,000,000 and Harpers Weekly, after a personal investigation of one of its emissaries says it will cost a billion before it is through. The issue of bonds is, however, said to be only an excuse for the purpose of replenishing the treasury, which sadly needs the money. Harpers gives this reason: "Eight years under Cleveland cost the country \$2,519,524,867; eight years under Roosevelt, \$4,627,855,383, a difference of more than two billion dollars. The army and navy under Cleveland, cost \$551,559,393; under Roosevelt, \$1,781,426,471, a difference of nearly a billion and a quarter. And 15 years hence not a single battle ship now afloat will be fit to go into action. How long, Oh Lord, how long before we shall return to an economically administered government and a tariff for revenue only."

REPORT comes from Lexington that Mr. W. P. Walton has bought the Gazette, a democratic afternoon daily of that city. As he is en route with his family to Atlantic City we could not corroborate the report, but on the principle that it is hard to teach an old dog new tricks and knowing his fondness for the business he has followed for nearly a third of a century, we incline to the belief that the report is true. Printers' ink is monstrous hard to wash off one's hands either really or figuratively.

As he regards Kentucky as debatable political ground, President Taft has decided that all the census employees in Kentucky must be republicans. But William the First ought to know, if not these presents are to inform him, that republicanism incompetency at Frankfort has taken Kentucky out of the doubtful territory and placed her on the firm foundation of a democratic State.

"A JUDGE has decided that the Bristol, Va., 'drys' have no cause of action and that the city must submit to the will of the majority and be 'wet.' The dries will hardly let a subordinate judge settle the matter for them, but take further steps before a higher court to prevent the reintroduction of the saloon."

ABRAHAM LINCOLN, whose name is now revered even by his enemies, managed to make buckle and tongue meet on \$25,000 a year. Mr. Taft now gets that much for traveling expenses and wants even more with a salary double that of the great emancipator.

SENATOR BRADLEY is back in Louisville and told a reporter that "he was going to practice law like the devil" till Congress reconvenes. A great many lawyers practice that way but we had not thought the Senator was in that class.

THE president and all his Cabinet are away from the capital, but "God reigns and the government at Washington still lives."

THE automobile display and performances at the Lexington fair were all that the most fastidious lover of the machine could have hoped, but as Senator Bailey, of Texas, who was in the city, remarked: "It is a most incongruous thing to have such exhibitions at an agricultural fair in a section that should encourage horse raising. When you buy a horse from a farmer or breeder, he not only gets your money, but continues to get it in the sale of feed for the animal. Every turn of the crank in an automobile destroys a quantity of gasoline and every ounce of that product of the Standard Oil Company disposed of enriches that grasping monopoly." There is food for thought in the suggestion.

EDITORS HOWELL, of the Atlanta Constitution, and Gray, of the Journal, of the same city, fell out over the merits of Hoke Smith's administration, and having run out of epithets applied to each other, have quit the unseemly quarrel from sheer exhaustion. Both are good men and useful to their thriving city, but such exhibitions as they have been making of themselves injure their influence among thinking people. If editors want to quarrel let them go out in the woodshed and fight it out flat and skull if necessary.

SORE head democrats and republicans are trying to get together at Lexington for an independent county ticket, but so far have not been able to agree on a division. A committee was appointed to urge Judge Parker to announce his candidacy to succeed himself and run at the head of an independent ticket, but he has so far kept his own counsel. It is hoped that he will tell his flatterers to "get behind me Satan," and thus retain a lingering respect of his former admirers.

NIGHT riders are again posting notices containing dire threats to the owners of Reelfoot Lake in Tennessee. This comes from the fact that the Supreme court of the State rushed in and saved the necks of the convicted slayers of Capt. Rankin on the merest technicality. Often the courts are the greatest producers of crime.

THE government statisticians estimate the five crops of wheat, corn, oats, rye and barley in the United States this year to be worth \$3,102,100,400. The entire output of gold and silver is but \$614,651,300. Great is the farmer and glorious are his prospects. And he deserves all the good that can come to him.

AUDITOR JAMES reports that there is a deficiency of \$358,017.93 in the general expenditure fund. This is going some considering that when he took charge there were about \$1,400,000 in the treasury and the republican administration is not half gone. May the good Lord help us.

A NEGRO was lynched near Cadiz Tuesday for attempted criminal assault, close by the place that another brute was hanged a short time ago. These drastic examples seem to have little effect on the lecherous fiends, who continue to get in their beastly work.

It is now said that the plums for Kentucky patriots will not be handed out till after Mr. Taft's 13,000 mile tour. Suppose he should be killed and Sherman should accede to the throne, wouldn't there be a new deal all around? Perish the thought. It is harrowing.

THE government places the wheat yield at 725,000,000 bushels, which is but 23,000,000 bushels short of the record crop in 1901. With this big supply there is not much danger of anybody starving and not much reason for putting the price of flour so high.

Who said the republican Congress is unkindful of the great common people? Didn't it reduce the tariff on porous plasters? In order to catch even, however, the manufacturers, will, it is said, enlarge the size and number of the holes in the plasters.

THERE seems to be developing a mutual admiration society between Miss Alice Lloyd and the State Journal. A fellow feeling usually makes us wondrous kind and both hate Congressman Cantrill with a holy hatred, and both with good reason.

THE governor of Alabama has signed the bill to prohibit the sale of any liquor in the State containing over 1 of 1 per cent. of alcohol. With such a proportion, a fellow would have to get outside of a barrel and a half to get even a little tipsy.

ONE would think that wireless telegraphy would be practically costless compared with that over strung wires on high priced poles. Not so, it seems, since a statement shows that the system was operated last year at a loss of \$47,000.

A DISPATCH says that Evelyn wants a divorce and half a million from Harry Thaw. She deserves it for saving his neck with the flimsy lie she told on Stanford White.

SINCE Senator McEnery, a so-called Southern democrat, voted right along with the Aldrich adherents, some real democrats are sore over the fact that Louisiana was ever purchased.

POLITICAL.

Gov. Willson has accepted an invitation to accompany President Taft on his trip down the Mississippi river. The Georgia General Assembly adjourned sine die after a session remarkable for the number of break bills introduced.

John F. Morgan, nestor of the Nicholas county bar, has announced for the democratic nomination for county judge to succeed the late Thomas Collier, who was named for that place in the Democratic primary held May 15.

The "stick and the shotgun," implements of the unwritten law, were figuratively abolished by the Georgia Legislature as the means of defense of a woman's fair name. The House passed the bill already adopted by the Senate making willful defamation of a woman a misdemeanor.

At a conference between representatives of the Society of Equity and the Burley Society at Winchester, propositions were made by the Burley Society which will end the controversy between the two organizations. The Burley Society agrees to pay the Equity Society \$1 a hoghead commission on tobacco pooled through local unions of the Equity Society; will pay over to each county money received for tobacco ten days after receipt, and will pay to the Equity Society \$10,000 out of the pool of 1909, half of which is to go to the State society.

The Crime Of Idleness.

Idleness means trouble for any one. Its the same with a lazy liver. It causes constipation, headache, jaundice, sallow complexion, pimples and blotches, loss of appetite, nausea, but Dr. King's New Life Pills soon banish liver troubles and build up your health. 25c at Penny's Drug Store.

W. H. TRAYLOR,
R. F. D. No. 4, Stanford, Ky.

Farm for Sale

On Danville & Hustonville pike of 20 acres in Lincoln county, Ky., 1/2 mile from Stanford. This farm is well improved, good well and cistern and abundance of stock water furnished from never-failing springs. Most of farm in grass. I desire to sell this farm in the next 60 days, together with the stock and crop, the stock consisting of 21 high-bred jennets, 8 jacks, all ages, 10 brood mares, 1 registered, 1 registered stallion; 35 acres of corn; 15 or 20 stacks of hay; farming implements of every description. I will sell the whole or any part of the stock and crop and the farm without the stock. I must sell not later than 60 days so as to give me time to make a sale of my stock. Also time to make a sale of my stock. Also time to make a sale of my stock. Also time to make a sale of my stock.
B. B. KING, Moreland, Ky.

The State University,

Lexington, Ky.
The State University, Lexington, Ky., offers the following courses, namely, Agricultural, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Chemical Engineering, and seven Scientific courses, each of which extends over four years and leads to a Bachelor's degree; also a Department of Law and a Department of Education, which last has been established instead of the Normal School. Persons who enter this department prepare for advanced work in pedagogy and are granted a Bachelor's degree in this subject when completed. The Academy for preparatory instruction is retained.
County appointees receive free tuition, privilege of residence in the dormitories, fuel and light, traveling expenses, if they remain in consecutive months, or one collegiate year.
The graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates for last year was 1,078. Each department has a specialist at its head, with the necessary number of assistants.
Young women find an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all the modern conveniences, bathroom, hall for physical culture, at \$2 per week. All courses of study in the University are open to women on identical conditions with those applying to males.
The completion of the Agricultural, Mining Engineering, Laboratory and Education buildings afford ample and commodious quarters for these departments, which are rapidly increasing in the number of matriculates.
For catalogues, methods of obtaining appointments, information regarding courses of study and terms of admission, apply to
JAS. K. PATTERSON, Ph. D., LL. D., Pres.,
or to D. O. FRAZER, Business Agent.
Fall Term Begins Sept. 9, '09.
